AUDITOR'S CERTIFICATE

This is to certify that I have examined the books, vouchers, bank statements and other financial records of the school board and treasurer of the school district of Marlow, N. H., of which the above is a true copy for the fiscal year ending June 30, 1945, and find them correct in all respects.

CLARENCE MOSHER,
Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Marlow.

I herewith submit my first report as Superintendent of School:

This is the first peace-time school year since 1941. There is little need to review all the problems the schools have had to cope with during the period of national crisis. Probably the greatest problem has been in the field of personnel. At the beginning of the war era there were hardly more than enough teachers to fill all the classrooms. The colleges and universities were graduating only enough new teachers to take care of a moderate turnover. The enrollments of teacher-candidates had been falling off since depression days. The low wage-scales then in existence and the generally unsatisfactory living and working conditions, as compared to office and other types of work, were not very appealing to high school graduates.

Immediately following this country's entry into the war and the expansion of armament production, industry launched a campaign for new workers, offering high wages and ideal working conditions. Many teachers took advantage of these offers. The armed forces also made attractive overtures with the result that the schools lost more teachers. These three factors account in a large measure for the shortage of teachers today. Present indications are that the situation will continue to get worse for several years, particularly in the elementary field.

There are high school teachers returning from the war effort and there shouldn't be too great a shortage of these another year, except in certain fields. The rural situation is really acute. There are no people preparing for rural schools, and haven't been for a number of years. The living conditions are unsatisfactory in the rural areas. It has been impossible to find

any kind of living accommodations for the teachers in some communities. Other districts have been forced to furnish transportation to a larger community in order to have a teacher.

Today, almost every teacher is looking for a single grade, or at most, two grades in a larger community. Many rural schools have been closed and others will need to be as the number of available teachers diminishes.

Mrs. Sabin resigned at the end of the school year, after seven years of teaching in the upper grade room. She is replaced by Mrs. Alice Ball, a very capable teacher of considerable experience. The work seems to be going very well this year.

HEALTH

Health inspection in the Marlow school showed the following defects and corrections:

45 pupils were inspected

7 pupils were underweight.

36 pupils were in need of dental care.

3 pupils were advised to have throat and nose examinations by a physician.

A dental clinic was held October 9, 1945, with work done as follows:

Number of pupils treated,	17
Number of pupils having teeth cleaned,	8
Number of silver fillings,	7
Number of porcelain fillings,	2
Number of extractions,	12
One pupil had thin teeth cared for by his own dentist.	

Two pupils were treated privately for tonsils and adenoids.

26 pupils were given auditometer tests, one was found to have a slight loss of hearing in both ears, and one to have a slight loss of hearing one ear.

BUILDINGS AND EQUIPMENT

The entire inside of the building was cleared and repainted last summer, making this school equal to any, in attractiveness, and appearance, in the state.

There is a serious need of an adequate supply of water in the school. It would be possible to pipe water from a well in the lot adjacent to the school without involving too much expense to the district. Water is necessary, not only for drinking, but for washing hands and general cleanliness. There is a tendency to ration water when it has to be brought in by hand. At the present time nearly all of the schoolhouses in the state have running water, or are to be supplied with it as soon as conditions make it possible.

If the attic space over the classrooms could be insulated with one of the various types of material for that purpose there would be a saving in fuel for the district. A small investment for material to be applied by local labor would be paid for out of fuel-savings in a very few years, and would increase the comfort in the building, as well.

Another need of the Marlow school is playground space. The new cemetery lot is fine, but the district should be considering the acquisition of a large lot of land near the school. There will be much stress placed on physical activity and outdoor exercise in the next few years.

STATISTICAL REPORT FOR 1944-45

Total registration,	48
Average membership,	40.06
Percentage of attendance,	92.21
Cases of tardiness,	81
Visits by superintendent,	51
Visits by citizens and others,	47

Number of pupils not absent or tardy,	3
Half-days schools were in session,	354

The attendance and tardiness record continues good, except for one or two families who seem to lack the spirit of cooperation so necessary for the proper conduct of any enterprise. Punctuality and regularity in attendance must be maintained for the good of the pupils and the school.

I wish to thank the members of the school board, teachers, parents and pupils for their cooperation during the year.

Respectfully submitted,
THERON B. THOMPSON,
Superintendent of Schools.
